connected by EGIT East Gippsland IT

Making Your Move-In Effortless

Imagine stepping into your new home with your internet live, Wi-Fi strong, and security cameras already recording—before you've unpacked a single box.

Setting up essential services like internet, Wi-Fi, and security is often one of the most stressful parts of moving. That's where East Gippsland IT makes the difference.

Our ready-to-go packages take care of everything—no more searching for an NBN provider, guessing which router to buy, or figuring out which cameras you need.

With our packages:

Your internet is live the day you move in.

Enjoy seamless, high-speed Wi-Fi in every room.

Your security cameras are already protecting your home from day one.

We handle the tech—so you can focus on settling into your new space.

Getting Connected Has Never Been Easier - It's simple:

1. Pick a package.
2. Choose your NBN plan.
3. Leave the rest to us.

Your internet will be running, your Wi-Fi will be strong, and your cameras will be recording—all from the moment you move in.

Optional Add-Ons:

Additional Wireless Access Points

Expand your coverage with extra Access Points as needed. Ideal for larger properties or areas requiring more coverage.

Additional CCTV Camera

Expand your coverage with extra cameras as needed. Ideal for larger properties or areas requiring more detailed monitoring.

Smart Doorbell

Upgrade your entryway with a smart doorbell featuring live alerts, secure local storage, two-way audio, integrated house chime, and remote access through the app.

Connectivity & Security Packages

Our integrated packages offer tailored solutions for home connectivity and surveillance. Whether you need robust security, seamless Wi-Fi coverage, or a complete setup, we have you covered.

CCTV Surveillance

High-definition, weather-resistant cameras with infrared night vision and motion detection. Footage is securely recorded via a Network Video Recorder (NVR) with remote access for real-time monitoring.

Whole Home Network

Wireless Access Points ensure fast, stable Wi-Fi throughout your home. A business-grade router and network switch support high-speed wired and wireless connections for all your devices.

Complete Home Connectivity & Security

This all-in-one solution combines high-speed internet with smart surveillance, ideal for modern households. Perfect for remote work, smart device management, and peace of mind.

NBN Enclosure

All packages include a durable, lockable NBN enclosure to protect equipment and maintain a professional installation.

NBN Services

EGNet delivers fast, dependable NBN plans designed for both residential and business users. Whether you're streaming, gaming, working remotely, or managing multiple devices, our plans offer consistent performance and outstanding value. Experience one of Australia's leading NBN connections with EGNet.
